WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

Isolated afternoon thunderstorms possible today

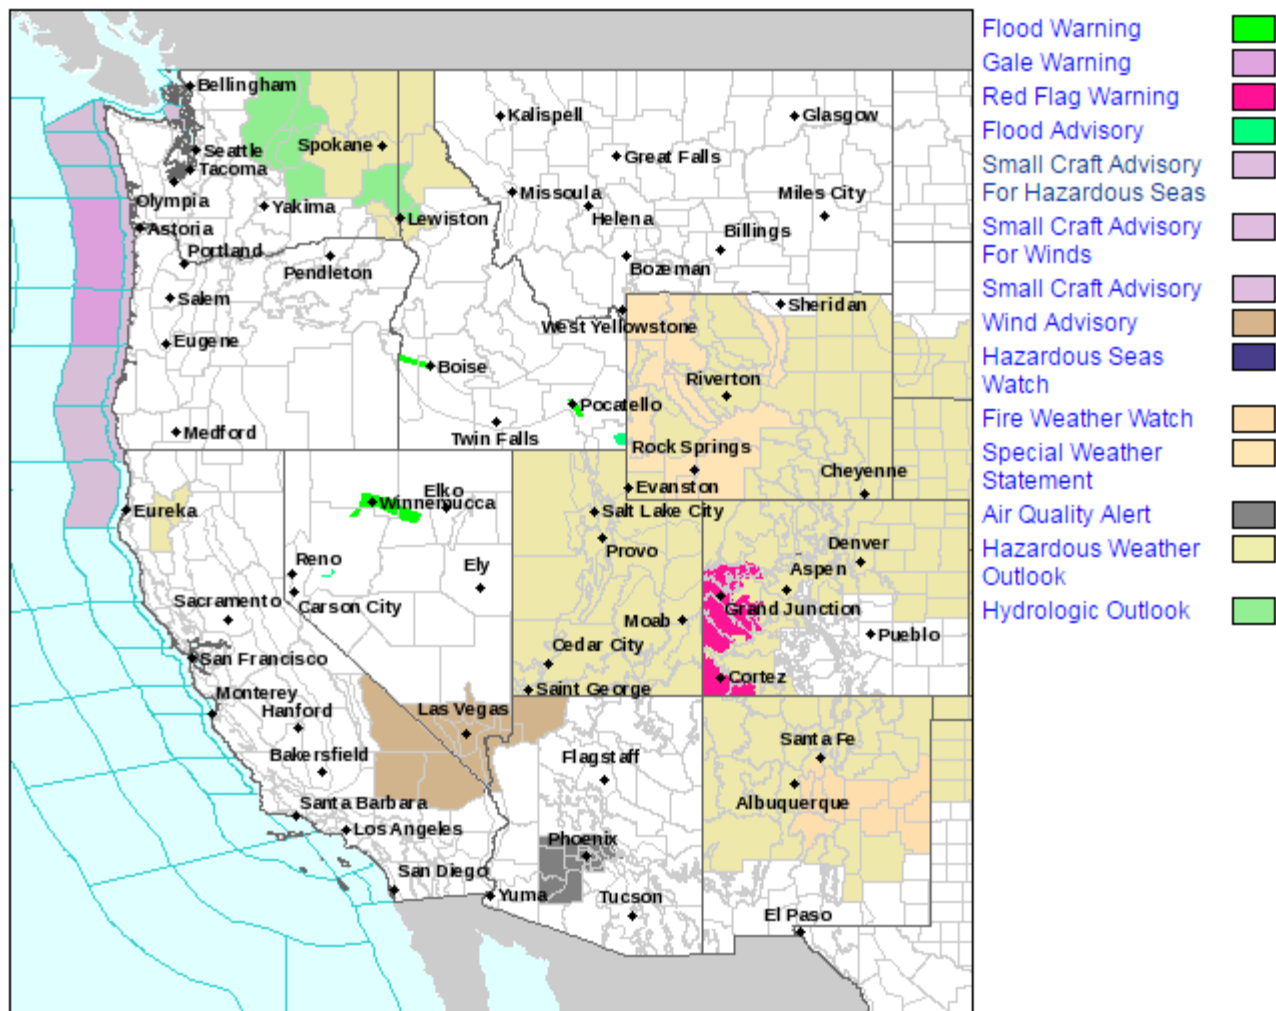

More showers and possibly isolated afternoon thunderstorms are expected over Northern California today behind a weather system moving east into the Great Basin. Another system off shore moving toward land will come ashore Wednesday morning and spread precipitation inland through Wednesday night. Mountain showers are likely to linger Thursday, but also be decreasing. Friday through Sunday looks dry throughout most of the region, but a low pressure trough passing through Saturday will probably keep some showers going in the far northern areas. Confidence in possible events early next week is low, but another, wetter system may move through the region Monday with more light precipitation, mostly in the northern and eastern areas. Snow levels with these systems will remain seasonably high at 5000-6000 ft in the north to 7000-8000 ft in the south. There will be areas where gusty southerly winds develop Wednesday afternoon and evening. Temperatures this weekend will be above seasonal normals with afternoon highs right around 80 possible in the warmest inland valley areas Friday and Saturday.

SOUTHERN CALIFORNIA

A cold front will continue to bring showers to Central California through this afternoon. Most locations will receive less than a quarter inch of additional rainfall, but the Sierra and its surrounding foothills will receive an additional quarter inch to an inch of rainfall. The snow level will be above 8,000 feet. Little or no rainfall is expected across Southern California with this front. West winds of 20 to 30 mph with gusts to 50 mph will continue to surface across the mountain ridges and desert passes through tonight. These winds will decrease Wednesday and then pick back up again and become northwest Wednesday evening through Thursday afternoon. Temperatures will remain near to a little above normal through Thursday as zonal flow continues across the region. Maximum temperatures will be in the upper 40s and 50s across the mountains and mid 60s to mid 70s in the valleys today, and then be in the 50s to low 60s across the mountains and upper 60s and 70s in the valleys Wednesday and Thursday. Maximum temperatures will jump to 10 to 20 degrees above normal and humidity will drop into the single digits and teens Friday and Saturday as a strong ridge of high pressure builds into California from the Pacific Ocean. North winds of 20 to 30 mph with gusts to 50 mph will surface across the South Coast of Santa Barbara and the Grapevine Thursday night. These winds will become northeast to east 15 to 25 mph with gusts to 40 mph over the mountains and below the canyons and passes of Southern California Friday morning. Winds will decrease Friday afternoon and become light Friday evening through Saturday afternoon. A Pacific trough will drop down the West Coast bringing a cooling trend and an increase in humidity Sunday through early next week. Strong and gusty westerly winds will once again occur over the wind prone mountain and desert areas Saturday night through early next week.

Cal OES LAW ENFORCEMENT MISSIONS

New Cal OES Missions

- **2017-LAW-35273, 4/17/17, 1137 hours:** Air Force Rescue Coordination Center (AFRCC) advised of an overdue aircraft suspected to be in Sierra County. Aircraft departed at 1415 from Truckee to Petaluma with no flight plan, Oakland Center reported at 0409 Zulu. Ramp checks have been completed at both locations to locate the aircraft, TB20, single engine, Dark blue over white in color with tail number N28070. AFRCC has requested Sierra County Sheriff Office (SCSO) to search location. **Update: 4/18/17,** Sierra SO will be sending search personnel into the area this morning with heavy snow and poor visibility. Civil Air Patrol will be providing support to SCSO with both personnel and potential fixed winged support. **Mission Ongoing**
- **2017-LAW-35113, 4/17/17, 1600 hours:** Sutter County Sheriff's Office requested a Human Remains Detection dog to search an area of interest regarding a missing person. LDO is working to support this mission in a LEMA capacity. Search timelines are to be determined based on K9 resources and investigation parameters. **Mission Ongoing**

Cal OES MISSIONS

Cal OES Missions

- **2016-IREOC-21748:** Tasking Caltrans to extend state highway right of way to facilitate hazard tree removal. This is a long term mission and is expected to remain in place through the summer months. **Mission Ongoing.**
- **2015-IREOC-19846:** One RAWS weather station to Amador OA – On scene 11/30/15, expected to be left in place until May 2017. **Mission Ongoing.**

Cal OES 2017 DROUGHT

The SOC remains activated in support of the Drought State of Emergency and continues to monitor the situation.

Current Local Emergency Proclamations:

A total of **38** local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 5 Counties: Fresno, Kings, Tulare, and Tuolumne, and San Joaquin
- 10 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of Rancho Cucamonga (San Bernardino County) City of West Sacramento (Yolo County), and City of Fort Bragg (Mendocino County)
- 11 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tolowa Dee-ni' Nation (Del Norte), Tule River Indian Tribe (Tulare County), Tuolumne Band of Me-Wuk Indians (Tuolumne County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County)
